An exquisite Jewel of Contemporary Architecture with almost 180ft on Sarasota Bay with nearly endless water views. This contemporary masterpiece was designed by renowned DSDG Architect Mark Sultana and built by Voigt Brothers Construction, and it sits on over 1 acre on Sarasota Bay. The property is gated and Florida native and drought tolerant plantings were used to limit the amount of irrigation required. Boasting all the amenities required for luxury living, this SMART home is impressive inside and out. Large columns elevate the structure, it provides protection from the elements and appears to float above the ground above an open air colonnade. The entire building including the roof is made of reinforced concrete construction, with addition of wood accents and pops of color for a warm overall aesthetic. The design allowed for the installation of a massive solar system, installed so that the home is fully powered and can be independent from the power grid. Enter the residence through an oversized glass pivot door and the suspended staircase with solid wood treads or the elevator will take you to the impressive main living area, which is then all on one level. The great/living room area opens onto the enormous, covered terrace through gigantic impact glass sliding doors overlooking sweeping bay views. The ultra-modern gourmet kitchen, equipped with glass sliders on the deck as well, is connected to the great room and can be separated by a movable wall if desired. The primary bedroom suite with an office/study is located at the south end of the home with the best views of the Ringling Bridge. The four additional bedroom suites are
